

OPERATIONS RESILIENCE

Mali depends on ASYCUDAWorld as a key tool to generate revenue and help rebuild the economy after period of political crisis.

SITUATION

In March 2012 Mali experienced a political crisis that caused serious operational disturbances as well as significant material and financial damage to the Customs Administration in Bamako. Many of the services were vandalized and looted including the stealing of computers and servers at the central Customs Administration site.

SOLUTION

Rebuild the customs operational capacity through the securitization of data, improvement of key technical elements of the ASYCUDA system and configuration of system. This ensures the maintenance and sustainability of the system as well as training of Malian Customs Agency staff.

RESULT

Beginning in 2014 the Government of Mali and UNCTAD signed an amendment to the project document covering steps to help restart the inflow of customs revenue for the country. This resulted in the following achievements:

- Upgraded Malian system including data migration from ASYCUDA++ to ASYCUDAWorld;
- Functional training on selectivity, litigation and valuation control modules as well as technical training on Oracle database administration, IT developments, network, system performance delivered;
- Electronic exchange of information with other systems (electronic single window) implemented, eg. National Directorate of Trade and Competition (DNCC) for the control and clearance of intentions, Public Treasury for electronic payment, CargosPort (ASAM) for electronic manifests, and other similar interfaces.

1 BILLION

Revenue goal for Mali
customs in 2018 in USD

“UNCTAD’s assistance and the implementation of ASYCUDAWorld contributed to the Malian Customs Agency’s commitment to generate revenue as part of the recovery policy after the 2012 security crisis. Together with the support of other partners and initiatives, customs revenue in Mali has reached record levels.”
